HOUSE BILL NO. 1672

Introduced by REPRESENTATIVE ELEANDRO JESUS F. MADRONA

EXPLANATORY NOTE

The coast of Barangay Labnig, in the Municipality of Corcuera, offers a breath-taking panoramic view of a rock formation shaped like an elephant.

This rock formation, which was formed during numerous volcanic eruptions, is amply called the Siki it Elepante Rock Formation.

To date, the Siki it Elepante Rock Formation is one of the most visited tourism sites in the Municipality of Corcuera. However, notwithstanding its popularity, with appropriate promotions and advertisements, it is believed that the natural beauty of the rock formation would be able to attract twice as many tourists.

Conversely, being an emerging tourist destination, if tapped, the rock formation could generate revenue for local businesses, create jobs, and improve the basic services of the community.

Thus, the passage of this bill is earnestly sought.
