Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

1 **SECTION 1. Nature and Scope of Franchise.** – Subject to the provisions of the
2 Constitution and applicable laws, rules and regulations, there is hereby granted to
3 Camarines Sur II Electric Cooperative, Inc. (CASURECO II) hereunder referred to as
4 the Grantee, its successors or assignees, a franchise to construct, install, establish,
5 operate, own, manage and maintain in the public interest and for commercial purposes,
6 a distribution system for the conveyance of electric power to the end-users in the City of
7 Naga and Municipalities of Bombon, Calabanga, Canaman, Magarao, Milaor,
8 Minalabac, Pili, Siruma and Tinambac, Province of Camarines Sur.

9 As used in this Act, “distribution system” refers to the system of wires and
10 associated facilities including subtransmission lines belonging to or used by a
11 franchised distribution utility extending between the delivery point on the national

transmission system or generating facility and the metering point or facility of the end-user.

SEC. 2. Manner of Operations of Facilities. – All electric distribution facilities, lines and systems for electric services installed, owned, operated, managed or maintained by the Grantee, its successors or assignees, shall be operated or maintained at all times in a superior manner, and it shall be the duty of the Grantee, its successors or assignees, whenever required to do so by the Energy Regulatory Commission (ERC), or its legal successor, or the Department of Energy, or its legal successor, or the National Electrification Administration (NEA), or its legal successor, or any other government agency concerned to modify, improve and change such facilities or systems in such manner and to such extent as the progress in science or technology and improvements or innovations in electric power services may render reasonable and proper.

Whenever practicable, and for purposes of maintaining order, safety and aesthetics along the highways, roads, streets, alleys, or right-of-way, the Grantee may allow the use of free spaces in its poles, facilities, or right-of-way by interested parties upon reasonable compensation to the Grantee considering the costs incurred to accommodate and administer the use of the Grantee's facilities by such parties. The ERC shall decide in case of dispute or disagreement between the parties.

SEC. 3. Authority of the ERC and NEA. – The Grantee shall secure from the ERC or the NEA or any government agency having jurisdiction over its operations, a Certificate of Public Convenience and Necessity and any other license, permit or authority indispensable for the construction and operation of the electric power distribution system.

SEC. 4. Excavation and Restoration Works. – For the purpose of erecting and maintaining the poles or other supports for said facilities, wires or other conductors or for the purpose of laying and maintaining said facilities, wires, cables or other conductors, it shall be lawful for the Grantee, its successors or assignees, with the prior approval of the Department of Public Works and Highways (DPWH) or the local government unit (LGU) concerned, as may be appropriate, to make excavations or lay conduits in any of the public places, highways, roads, streets, lanes, alleys, avenues, sidewalks, or bridges of the province, cities or municipalities: *Provided, however,* That a public place, highway, road, street, lane, alley, avenue, sidewalk, or bridge disturbed, altered, or changed by reason of erection of poles or other supports or the underground laying of wires, other conductors or conduits, shall be repaired and replaced in efficient manner by the Grantee, its successors or assignees, in accordance with the standards set by the DPWH or the LGU concerned. Should the Grantee, its successors or assignees, after the ten (10)-day notice from the grant of authority, fail, refuse or neglect to repair or replace any part of public place, highway, road, street, lane, alley, avenue, sidewalk, or bridge altered, changed, or disturbed by the said Grantee, its successors or assignees, then the DPWH or the LGU concerned shall have the right to have the same repaired and replaced in good order and condition and charge the Grantee, its successors or assignees, double the amount of the cost and expenses for such repair or replacement.
